Courses Evaluation

At the end of each semester, students have the opportunity to evaluate their courses in the university evaluation system. The evaluation is completely anonymous. After the student evaluation closes, the teachers and guarantors of the courses gain access to the evaluations and can comment on the student evaluations.

Course evaluation of individual courses is done electronically through Portal/STAG. After logging into Portal, select the tile *Evaluations* and choose *Student evaluation of courses* on the main page.

Schedule of student evaluations for the academic year 2022/2023
